

# Mic Brush

## *Professional Paddle Brush*

The Mic Brush has a perfect body shape for de tangling and straightening out long hair types. The cushioned soft ball tip quills gently massage the scalp whilst brushing and the soft fluted handle moulds to the hand. Perfect for the Pop Star in you!

- Anti static rubber cushioned pad prevents fly-away hair
- Unique, detachable flexible section pin allows easy sections with one hand
- Available in Black or White

# *The Brush*

## *Original*

### *The Original Brush*

Corioliss adds another member to The Brush family: Original is our classic cushioned brush designed for professional styling and comfort.

Fine Nylon Bristles gently massage and stimulate the scalp as they are brushed through increasing circulation. This triggers the production of Sebum, a natural conditioning oil which helps to increase strength and giving your hair a gorgeous healthy shine.

The Flexible Rubber Cushion gives the brush greater movement whilst brushing allowing the bristles to glide over the contours of your scalp. Cleaning the hair as they pass preventing damage and tearing of the cuticle.

The Premium Body and Handle moulds to the hand, ergonomically designed for extra comfort and grip.

# Detangle Brush

*Detangles even the most stubborn knots with less damage & stress to hair*

## *Thermochromic Barrel Brush*

Designed to glide effortlessly through your hair without snagging or pulling, for quick and effective de-tangling. See and feel the benefits instantly with our easy to use ergonomic design. Less breakage = stronger healthier hair.

- Quick & easy detangling
- Reduced hair loss & breakage
- Gently massages the scalp
- Ergonomic design
